

RESEARCH COLLOQUIUM

# PUBLIC COMMUNICATION IN UKRAINIAN MARIUPOL UNDER ATTACK

Is it possible to survive without social networks, the internet, mobile communication and reliable information in a city under siege?

The public research colloquium will focus on types of communication during the information blockade in Mariupol, tools of propaganda influence, and the transformation of the city's media landscape under siege. The **researcher and PICAIS Fellow Dr. Olena Melnykova-Kurhanova** will share her experience of surviving in the besieged city and the first results of her research.

The event will be held as an open reflection seminar and will have a hybrid format (offline and online). It will be dedicated to the anniversary of the beginning of the full-scale Russian-Ukrainian war.

**The research colloquium will be held in English. All members of the University of Passau and interested members of the public are cordially invited to the event.**

February 21 2023, 11 a.m. - 12 p.m.

Location: HK 28 SR010 (Dr.-Hans-Kapfing-er-StraÙe 28)

We ask university members who would like to attend to please register in Stud.IP under the event number [21022023](#).

If you are from outside the University and would like to attend, you can register via e-mail to [katrin.arkona@uni-passau.de](mailto:katrin.arkona@uni-passau.de).
