# Why you should participate

## What our participants from last semester say about the project:

Suitcase of my life: “I learned a lot by talking to an older person – especially because my partner and me really were alike. She really opened my eyes in terms of how you can age and still „be young“ or experience adventures and new things.”

Other projects: “I really appreciate the fact that I could always participate in all events when i wanted to and push them further, organize them and carry them out. Of course, the international exchange is particularly exciting and you get to know a lot of new people while at the same time contributing to the integration and networking of everyone.”
