

I see my role as a business mentor as a wonderful opportunity to accompany creative minds on their wild journey from the good idea to the point of sale.

Franziska Zacher, KWADRAT Kommunikationsberatung

My tip to the teams is to think carefully about who the target group for the startup should be and what added value you can offer them with your own idea.

Jan Siebert, tomorrow web GmbH

I consider the 5 Euro Business Competition to be a great opportunity for students at the University of Passau to try out the great prospects and challenges of self-employment in an inspiring and protected environment.

Armin Schlattl, Hans Lindner Stiftung

I hope the participants in the 5-euro business competition enjoy developing and experiencing their new business model.

Andrea Kahr, IHK Niederbayern

Every time I enter a competition, I am amazed at the enthusiasm with which the students develop ideas and turn them into initial sales in such a short space of time.

**Christian Just, Ostbayerische
Mittelstandbeteiligungs-GmbH**

I like being a business mentor because I also like sharing my experience and my network to support founders. I like the ideas, but above all I always find it exciting how teams manage to get to the heart of the matter within a very short time, only to have everything done within a few weeks for the final. There is always something to learn from this. That's why the 5 Euro Business Competition is a win-win situation for me.

Markus Mildenberger, ma-edv GmbH

I think the 5 Euro Business Competition offers students a good opportunity to try themselves out as creators of entrepreneurial activity, to recognize and develop their own strengths and, ideally, to experience the enthusiasm of successful teamwork.

Paul Hofbauer, SUMIDA AG

I am involved as a business mentor because I would like to support young people on their way into business.

Juli-Marie Vesper, ProLi und Cineplex Passau

I recommend that teams enter the 5-Euro-Business-Competition with passion, curiosity and sociability and that they act in an ecologically, economically and socially responsible manner.

Christian Schläger, Hans Lindner Stiftung

I consider the 5-Euro-Business-Competition to be an important building block to promote a start-up culture and to give students an understanding of "starting a business" in a playful way and to underpin it with relevant practical experience.

Karl-August Thiele, S&K Solutions GmbH & Co. KG
