The Online Self-Learning Course

The course was designed with the help of international students, who shared their personal experience starting at the University of Passau.

The goal was to learn about the "oh, I wish I had known that beforehand" - moments, so that we can provide you with exactly that information right from the start.

Aiming for easier accessibility as well as independency of time and place, we decided for an asynchronous self-learning online course format, that can provide exactly that.

Goals of the course:

- ✓ Create awareness for the cultural diversity of communication
- ✓ Rhetoric and behavioral training
- ✓ Training in academic writing
